Thanks for getting this done, Nagu.

That file is empty; can you please resend the attachment to everyone?

Thanks again,  
Andrew

**Subject:** formaldehyde - appendix

Hi Barbara and Andrew,

Attached is the formaldehyde genotoxicity appendix with revised human studies section (text and table). I have tried to insert the revised text in the place holder section of the appendix, but please let me know if you want to see all the detailed track changes of different versions (including your recent revisions and some provided by Sury's review).

Also, I did a quick literature search and have included some recent refs so I have made a comment in the beginning of the section to see if you want to update the literature search date, however, I do want to let you know that this was a quick search and not a comprehensive and/or systematic review.

If you have any questions, please let me know.

Thank you  
nagu
